Persons with Disabilities: The term **persons with disabilities** is used to apply to all **persons with disabilities** including those who have long-term physical, mental, intellectual or sensory impairments which, in interaction with various attitudinal and environmental barriers, hinders their full and effective participation in society on an equal basis.

1.2. Departmental and Programme Overview

The overall objective of the IEDS programme is to advance economic growth and job creation initiatives that prioritize historically disadvantaged individuals and groups through, -Enterprise Development; Economic Empowerment; and -Regional and Local Economic Development. The main function of the Economic Empowerment Subprogram is to create an enabling environment for economic development and empowerment of the Previously Disadvantaged Individuals and Groups (especially Youth, and Women) to participate in the mainstream economy.

It is further tasked to ensure that there is economic transformation in the Province of KwaZulu-Natal. The Sub-programme derives its mandate from the South African Constitution, National Development Plan, Broad-Based Black Economic Empowerment (B-BBEE) Act, Codes of Good Practice, Provincial Growth Development Strategy, KZN B-BBEE Strategy and other empowerment strategies.

The B-BBEE Act 53 of 2003 as amended regards empowerment of black people as a priority for radical economic transformation. It is on this basis that the KZN B-BBEE Strategy for 2008 was introduced. The central focus of KZN B-BBEE Strategy, among others, is to facilitate and co-ordinate stakeholders for B-BBEE policy implementation across all sectors of economy. Over the years the Department of Economic Development, Tourism and Environmental Affairs (EDTEA) has implemented various strategic initiatives to drive economic transformation in KZN. This includes establishment of key structures as determined by the KZN B-BBEE. The following structures have been established since 2008: B-BBEE Advisory Council, B-BBEE Forums, and B-BBEE Implementation Teams.

1.3. Rationale of the Project

Disability and poverty operate in a vicious circle. Disability often leads to poverty and poverty, in turn, often results in disability. People with disabilities face multiple discriminatory barriers.

Disability must be integrated into all facets of planning, recognising that there is no one-size fits-all approach.

In line with the priorities of the plan, people with disabilities must have enhanced access to all opportunities. Efforts to ensure relevant and accessible skills development programmes for people with disabilities, coupled with equal opportunities for their productive and gainful opportunities in the mainstream economy must be prioritized.

The Department seeks to create a strategy for Entrepreneurs with disabilities in the province of KZN. Entrepreneurs with disabilities continue to be excluded from the mainstream economy and have difficulty in enjoying their fundamental rights. This exacerbates their vulnerability as they find themselves in deep poverty. Moreover, studies show that Entrepreneurs with disabilities are also susceptible mental challenges which often lead to social violence.
