One of the strategic objectives of the department is to ensure sustainable and inclusive economic growth for job creation, the achievement of economic growth can be facilitated through broad participation by the community.
- 1.2.2 The purpose of the Integrated Economic Development Services (IEDS) Programme 2 is to advance economic growth and job creation initiatives that prioritize historically disadvantaged individuals and groups. It aims to create partnerships and implement policies, programmes and projects aimed at creating employment and building capacity of stakeholders, supporting and promoting enterprises owned by previously disadvantaged individuals, groups, or communities in order to bring them into the mainstream of the economy. The Programme comprises of the Enterprise Development, Regional/international and Local Economic Development (RLED) and Economic Empowerment.
- 1.2.3 The Economic Transformation Unit is located within the Economic Empowerment Subprogram. The strategic objective of the sub-programme is to transform the economy by creating an enabling environment for economic development and empowerment of the previously disadvantaged individuals and groups (especially youth, women, the disabled and military veterans) to participate in the mainstream economy.

1.2. Rationale of the Project

In 2020, the Economic Transformation unit identified the Clicks and Dischem groups and initiated discussions with them for an opportunity to have black-owned African natural hair and beauty products manufacturers, supported by the Department of Economic Development, Tourism and Environmental Affairs, sell their products through their chain stores for a wider market reach. The Clicks Group showed keen interest to the proposal as the company was also embarking on targeting black owned manufacturers to provide them with shelf space in their stores. The two retail-led healthcare groups provided the Department with the requirements that are needed in order to list one's products with them.

The listing requirements, amongst others, included the following:

- Factory accreditation.
- Products and ingredients used to be SABS approved.
- Short term, medium term and long-term business plan.
- Quality assurance to ensure product consistency.
- Company and brand history.

The Economic Transformation Unit held consultation meetings with black-owned manufacturers of African natural hair and beauty products to try and link them with private sector markets. Upon assessment of their businesses, it was found that the targeted businesses had various challenges including most of the compliance requirements of the chain stores. They requested that the Department provides them with support so that they can grow their brands and in future be able to bridge these gaps and access these markets. The hair care industry is one of the industries that employs lots of young people which has an alignment with government programme of fighting the triple challenges of poverty, inequality, and unemployment which is continuing to rise in South Africa due to the unfavourable economic climate.

The proposed project will provide market access opportunities to black owned manufacturers of African natural hair and beauty products. This will assist in building their brands, increase sales by capturing new customers and marketing of their businesses. The project

- Encourages the development of innovation and commercially viable business activities.
- Promote ownership of BEE priority target groups (youth, women and people with disabilities) in the sector.
- Contribute towards economic development as well as stimulate empowerment, development and job creation.

The project also aims to facilitate transformation within the hair and beauty products manufacturing industry.

2. Purpose of the ToR

- Lack of factory space which conforms to specified ISO standards/accredited.
