

KWAZULU-NATAL PROVINCE

ECONOMIC DEVELOPMENT, TOURISM
AND ENVIRONMENTAL AFFAIRS
REPUBLIC OF SOUTH AFRICA

A GREEN GOVERNEMENT CALL: Community eWaste Recycling Drive

The KwaZulu-Natal Department of Economic Development, Tourism and Environmental Affairs (EDTEA) has an **eWaste Recycling Programme** where it is recycling e-waste. This programme is one of the vehicles used by the Department in establishing itself as a **Green Government** through greening of the province.

The Department is calling for a partnership with the KZN community for the greening of the province through various sub-programmes under its **eWaste Recycling Programme**.

eWaste2Art Upcycling

We are offering **FREE eWaste Material Donation** on all artists who are interested in making art pieces from e-waste material. We are calling all interested artists to contact us for the collection of this **FREE** material. They will then use the material to make their desired art pieces from it.

This programme is open all year round. Interest artists must contact us on the details below in order to request the **FREE** e-waste material for making art pieces.

TERMINOLOGY

eWaste

eWaste is a term used to describe, old, broken and old electronic and electrical equipment, such as computers, printers, phones, etc.

eWaste Recycling

eWaste Recycling is the disposal of eWaste in an environmentally friendly manner to protect humans and the earth.

eWaste2Art Upcycling

eWaste Recycling generates eWaste material that can be used to make art pieces and sculptures.

eWaste Recycling Training

We are calling people who are interested in recycling e-waste to participate in our **eWaste Recycling Training** sub-programme which we offer for **FREE** to anyone who is interested. This training is not accredited but we will give interested individuals practical training on the recycling of e-waste, the legislation around e-waste and the business administration of establishing an eWaste Recycling Centre. This training is aimed at giving people a solid foundation on establishing eWaste Recycling Centres in their communities.

Individuals interested in this training must contact us on the details below to submit their names and contact details. **The closing date for submission of names and contact details is 30 June 2022.**
