

EZEMVELO RESORTS RE-OPEN AFTER COVID-19 SCARE

14 January 2021

Ezemvelo KZN Wildlife Resorts that were recently forced to shut their doors due to staff testing positive for COVID-19 are now opened.

Hluhluwe iMfolozi Park's Hilltop Resort is already welcoming the first guests as of tonight, Thursday, 14 January 2021 whilst the Giant's Castle will host its first guests as from Friday, 15 January 2021.

All employees who were in isolation have completed their isolation period and were immediately allowed to go on time-off for the next 7 days.

The guests who were allowed to self-isolate inside these resorts vacated their chalets few days ago. All chalets as well as public areas within these resorts were sanitised.

Ezemvelo's Acting CEO, Mr Ntsikelelo Dlulane has expressed his gratitude to all guests who were affected by the closure of these resorts.

"They understood the challenge that we were facing and most of them were willing to either re-book for future date or transfer their bookings to other resorts. We are grateful for that. Only an insignificant number of guests cancelled their bookings" concluded Mr. Dlulane.
