1.2 PROGRAMME OVERVIEW

The KwaZulu-Natal (KZN) Department of Economic Development, Tourism and Environmental Affairs' strategic plan is centered on the stimulation, support and promotion of an inclusive and sustainable economic development at provincial and local level. To stimulate economic growth through the promotion of trade and investment in priority economic sectors and the implementation of strategic initiatives to advance industrial development. Business Process Outsourcing (BPO) has been identified as being critical in driving the facilitation of sustainable and inclusive economic growth to ensure job creation.

The Trade and Industry Development Programme recognizes the importance of the BPO industry in delivering on its mandate alongside eminent constraints to the industry's full realization such as; the lack of skilled youth workforce against an industry heavily impacted by technology. It is against this premise that a skills development and training initiative is vital in the creation of a skilled youth workforce that can support the demand that is on the rise for the customer experience sector, BPO.

1.3 SUB-PROGRAMME OVERVIEW

The Department of Economic Development, Tourism and Environmental Affairs (EDTEA) is legislatively mandated to champion and promote sustainable economic growth in the province of KwaZulu-Natal (KZN). The Business Process Outsourcing industry falls under the Sector Development Sub-Programme which aims to provide customized support services to the prioritized sectors of the provincial economy thus delivering on; the transformation agenda, job creation and long term sustainable and inclusive economic growth.

The Business Process Outsourcing (BPO) sector is one of the pillars and key priority sectors for the reconstruction and recovery of the provincial and local economies. The sector is also a strategic industry that supports the creation and retention of jobs, foreign currency earnings (trade) and is also a significant contributor to KZN's GDP.

The skills development and training initiative seeks to mitigate the threat of skills shortages in a prioritized sector capable of promoting major expansions and employment creation during a demand season in the Business Process Outsourcing (BPO) sector. The BPO sector desk implemented a successful skills training and placement project during the 2021/22 financial period, which aimed at supporting the development and expansion of the BPO sector through upskilling of the matriculated youth from the province on BPO services including placement/absorption of at least 80% of graduates for a period of not less than 12 months after their graduation. The training of the skills sets of Data Scientists, Data Analysts and Call Centre Agents were identified as key skills to support the sector and of them 114 unemployed matriculants and graduates which were trained on BPO-

related services (Data Scientists =10; Data Analysts= 10 & Call Centre Agents = 96) 87 of the trained youth were placed within

CCI company and have signed 12 months contracts as per the conditions of the program which ensured the placement of 7% more of the graduates than the set target.

1.4. PROJECT SPECIFIC BACKGROUND

1.4.1 EDTEA has identified a number of priority sectors which are geared towards the reconstruction and recovery of the KZN province's economic growth from the decimation of the Covid -19 pandemic. Consequently, and in alignment with the National Recovery and Reconstruction Plan, the Business Process Outsourcing sector has been identified as one of the priority sectors that are critical to the recovery of the KZN economy as well as the entire country as acknowledged on the 2020 KZN Global Business Services (GBS) Market Quantification Report.

1.4.2 The BPO sector in South Africa (SA), has historically been a strong performer. Over the next three years, it is expected to continue to grow at around 3 percent (%) per annum, in line with global growth rates in the BPO space. The overall South African BPO market is valued at \$461 million, \$272 million of which is attributed to traditional BPO, while BPaaS is valued at \$188 million, (McKinsey & Company, 2020).

1.4.3 The BPO industry is a people intensive sector that is enabled and impacted by technology that enjoys higher growth than many other sectors of the South Africa economy and is consequently able to have a major impact on youth unemployment. The roles are skilled roles that do not in general require any tertiary qualification. The skills that young people build by working in the sector are easily transferable to other sectors and also lay a foundation for career growth and development into specialist and leadership roles essential for our economy. KZN holds the second large regional market's share for the international segment of the BPO industry at 21% and a third position of the domestic market share at 7%.

1.4.4 South Africa has been voted the second most attractive Business Process Outsourcing (BPO) location in the world for three years in a row, based on its reputation as a *reliable*, *cost effective*, and high-quality destination for outsourced business services.

1.4.5 In addition to a "world-class telecommunications infrastructure"- such as high-speed fibre, South Africa's BPO can significantly offer cost savings of at least 60 percent (%) less than such countries like the United Kingdom; United States and Australia. The foregoing is crucial, when considering that 61 percent (%) of existing offshore business in South Africa comes from the United Kingdom. The United States and Canada combined contributing 18 percent (%), with another 11 percent (%) coming from Australia.

1.5 RATIONALE FOR THE PROJECT

It is estimated that South Africa produces approximately 180 000 tertiary and 430 000 high school graduates annually. The high number of high school graduates means that the economy is battling to absorb the number of matriculants from both an employment and tertiary education perspectives. It is against this backdrop that KZN

EDTEA seeks to implement a program that will create job opportunities for unemployed matric graduates/youth as entry level on the programme, whilst expanding the skills-base in support of the BPO sector.

KwaZulu-Natal produces above 100 000 high school graduates annually. With a people intensive as BPO, this sector is enabled and impacted by technology that enjoys higher growth than many other sectors of the South African economy and is consequently able to have a major impact on youth unemployment. The roles are skilled roles but do not in general require any tertiary qualification. The skills that young people build by working in the sector are easily transferable to other sectors and also lay a foundation for career growth and development into specialist and leadership roles essential for our economy.

A Service Provider is required to support the development and expansions of the BPO sector in the KZN Province through a supply of skilled and qualified youth candidates into the GBS sector. This will enable KZN to have an efficient skills supply chain, which is critical to achieve growth targets for the KZN Province. The skills and development programme seeks to also provide employment opportunities for the skilled youth, to be absorbed through employment opportunities that may arise as a result of the training programme.

1.6 OBJECTIVES OF THE PROJECT

The KZN EDTEA significantly seeks to support development and expansion of the BPO sector through:

- Skilling of the matriculated youth and college graduates from the province on BPO services.
- Placement/ absorption of at least 75% of graduates for a period of not less than 12 months after their graduation.
- Training of Call Center Agents, Data Scientists and Data Analysts.
- Creation of new job opportunities through the placement of the trained youth within the BPO sector.
- Retention of existing jobs within the BPO companies from the province through strategic partnerships that will add-value to their expansion aspirations whilst achieving the KZN government's objectives.
- Broadening of transformation and elimination of inequality.

2. PURPOSE OF TOR

EDTEA calls for a proposal from Service Providers to facilitate the training of youth (from unemployed matriculants and college graduates) on requisite skills (Data Scientists; Data Analysts; Call Center Agents) within the BPO sector. The appointed Service Provider will further ensure that there is placement of the trained beneficiaries/graduates within a BPO company's workplace.

3. SCOPE OF WORK

The Project will deliver the following:

- Select, recruit and train (together with EDTEA) 100 matric and college graduates from around KZN on BPO-related skills as Call centre Agents, Data Analysts and Scientists through advertised calls for applications;
- Register the recruited trainees/beneficiaries with relevant SETA and ensure the issuing of certificates
 accredited by the relevant SETA (through collaboration with partners in the education field, ensure
 certification of the training programme is awarded to participants);
- A detailed Project Plan specifying the duration of the training per each of the 3 identified areas;
- Cost-breakdown of the training and stipend per learner as per each training area;
- Hire and up skill Data Analysts; Data Scientists & Call Center Agents;
- Placement of at least 80% of the trained graduates within the appointed/successful company. Of the 100 trained youth participants ensure 80 are placed/employed by host companies
- Prepare and enter into placement/employment contracts with the graduates for a period not less than 12 months post-training.
- Ensure all successful candidates arrange their own accommodation
- Do progress reports and participate on the PSC meetings as scheduled by the Client EDTEA.

4. PROJECT MANAGEMENT

The project shall be managed through Program 3 under the Directorate – Sector Development. Upon appointment of a successful Service Provider and the signing of a Service Level Agreement (SLA), a Project Steering Committee (PSC) will be established. The PSC will be chaired by the Director: Sector Development and will serve as a decision-making body to provide a strategic direction and oversight to the project. The PSC however, will not deal with the day-to-day activities of the project but instead provide overall guidance and oversight to the project.
