1.2 Departmental Programme Overview

- 1.1.1 The strategic focus for the KwaZulu-Natal Department of Economic Development, Tourism & Environmental Affairs (KZN EDTEA) during the 2020-2025 strategic planning period is the attainment of a radically transformed, growing, inclusive, innovative and sustainable economy, thereby optimizing employment in Kwa Zulu Natal. The Department aims to provide creative and innovative leadership by

being a catalyst for economic transformation, job creation, sustainable development and implementing strategies that drive economic growth. Pillar two of the current strategic plan is about driving a strong and inclusive economy through ensuring the transformation of the economy and jobs creation. The emphasis remains addressing the triple challenges of poverty, unemployment and inequality.

1.2.2. One of the branches of the Department through its work breakdown structure or areas of focus is the Integrated Economic Development Services (IEDS). The purpose of IEDS is to advance socio-economic growth and job creation initiatives that prioritize historically disadvantaged individuals and groups. It aims to create partnerships and implement policies, programmes and projects aimed at creating employment and building capacity of stakeholders, supporting and promoting enterprises owned by previously disadvantaged individuals, groups, or communities in order to bring them into the mainstream economy. The branch is further divided into three chief directorates namely Enterprise Development, Regional and Local Economic Development (RLED) and Economic Empowerment.

1.2.3 Zooming into the *Enterprise Development Chief Directorate* it is further sub-divided into two directorates namely the Small Business Development and the Cooperatives Development Directorates. The strategic objective of the Enterprise Development Chief Directorate is to co-ordinate the support and development of sustainable SMMEs and cooperatives/social enterprises that contribute to wealth and job creation. Therefore, this project, namely seeking the appointment of a service provider to conduct practical training for cooperatives in poultry production in the uMgungundlovu district falls squarely into the line function of the Cooperatives Development Directorate.

1.2 Rationale of the Project

1.3.1 Capacity building and skills development (training) remains the key driver towards the transformation of the economy and creating job opportunities. During the current financial year amongst other things the Enterprise development is responsible to empower cooperatives and SMME's so that they are financially viable and thus provide sustainable jobs. Empowerment includes training, mentorship, access to finance, incubation and general business advisory services. These interventions will improve skills, knowledge and capabilities of small enterprises to run their businesses effectively and sustainably.

1.3.2 One of the reasons why cooperatives fail is the lack of technical and business management skills. Technical skills are required to produce goods and services of good quality which enable cooperatives to compete in the open market economy (competitiveness). On-site mentorship industry/sector experts and coaches is also critical for coops to be able to compete within the mainstream economy. Generally, agriculture, particularly in the poultry sub-sector is one of the dominant sectors among cooperatives especially in rural areas. Starting up a poultry production business seems to be easy and feasible, but in actual fact it is not. This is due to various factors i.e exorbitant input costs, selection on the choice of breed, broiler management, chicken anatomy, physiology, vaccination and critically, a proper plan on

managing mortality rate. The lack of marketing skills also plays a huge role in the failure of poultry businesses.

1.3.3 The Operation Vula Fund from the Department has assisted many cooperatives with various resources required for production. However, for the Department to achieve a return on this investment, cooperatives funded should be developed and empowered to be able create jobs. This will ultimately translate to an increase in Gross Domestic Product (GDP) of the province and contribute to a much-desired economic recovery of the province. The development and empowerment of coops post funding is therefore critical. The provision of technical training is one of the post disbursement interventions by the Department in order to realise its strategic objective of building a bigger business base in the poultry industry while creating sustainable and meaningful jobs.

1.3.4 It is against this background that this project of providing technical training for cooperatives in poultry production industry has been conceptualized. These TORs deal with a motivation for the appointment of a service provider to conduct technical skills training for cooperatives in poultry production within the UMgungundlovu District.
