## 1. BACKGROUND INFORMATION

After twenty-nine years of the democratic dispensation, the country as a whole and the province in particular, is still plagued with the triple challenges of unemployment, poverty and inequality. In order to improve on these challenges, new businesses, with particular emphasis to manufacturing, need to be built in order to stimulate economic activity, which will have positive trickle-down effects on employment, inequality and poverty. The Expanded Public Works Programme (EPWP) is one of Government's medium to long term strategies to reduce unemployment and alleviate poverty through creation of work opportunities using labour-intensive methods. The EPWP is also a strategy used by government to improve skills development through training, capacity development and on-the-job training of people involved in the programme.

## 2. DEPARTMENTAL AND PROGRAMME OVERVIEW

The Department of Economic Development, Tourism and Environment Affairs is currently implementing an EPWP programme (Invasive Alien Species Programme) which serves as one of its response to job creation and skills development. For 2023/24 financial year, the Department implements 41 approved EPWP projects that deal with management and control of alien plants within targeted local municipalities of the KZN province. Among the 2023/24 approved projects is the Value-Added Industries (VAI), a furniture manufacturing project. The VAI is a socio-economic project that seeks to have tangible environmental and economic benefits through facilitating the control of invasive alien plants, provision of technical skills and creation of employment opportunities in the manufacturing of wood furniture products, forestry and timber-work in general. The VAI is implemented as a specialist project of the Department where project participants (contractors and general workers) are recruited and capacitated with critical skills in the fields of forestry (timber) and furniture manufacturing.

## 3. RATIONALE OF THE PROJECT

There is a pervasive need to provide employment, which has been seen as an avenue to reduce poverty levels and bridge the income inequality, currently faced by the citizens of South Africa. Although, government has taken great strides in addressing the triple challenges, more still needs to be done. The stimulation of the economy through the manufacturing sector is emphasised in the National Development Plan, Industrial Policy and Action Plan, Operation Vula and the KZN Provincial Growth and Development Plan. As earlier mentioned, one of the EPWP projects implemented by the Department is the Value-Added Industries (VAI), a furniture manufacturing project. The Department's objective through its VAI projects seeks to formalise and increase the utilization of the invasive alien plant biomass to manufacture furniture products needed by Government, thereby creating work and skills training opportunities for previously unemployed people. To attain the objectives of this project, provision of training to participants of the project is one the critical requirements, hence the need to solicit an accredited training professional service provider that would assist the Department to train project participants. The required training course will equip project participants with relevant skillset that will provide them with necessary knowledge and understanding of furniture making.

## 4. PURPOSE AND OBJECTIVES OF THE TERMS OF REFERENCE

The purpose of the Terms of Reference is to solicit a training service provider with an accreditation with the following organization namely; Fibre Processing and Manufacturing Sector Education and Training Authority (FPMSETA) to assist the Department with training of IASP project workers on Furniture Manufacturing skills programme based on **SAQA Qualification ID 49105, titled "National Certificate Furniture Making: Wood" NQF Level 2, Credits 53**. The training is to be provided to **40** project participants.
