2. DEPARTMENTAL AND PROGRAMME OVERVIEW

2.1 The Provincial Government of KwaZulu-Natal (KZN) has crafted the Provincial Growth Strategy which is aligned to the National Development Plan (NPD) in charting the course into vision 2030. The strategy further aligns with the South Africa's 2024 – 2029 Medium-Term Development Plan (MTDP); as it remains focused on its mandate to drive inclusive and sustainable economic development which is in pursuit of the **seventh administration's strategic priority one – Inclusive economic growth and job creation.**

2.2 KZN Department of Economic Development, Tourism and Environmental Affairs (EDTEA) derives its mandate to facilitate and promote economic growth and transformation of the province from the Constitution of South Africa; and a plethora of national legislative, policies and strategic frameworks. EDTEA does this through the formulation of economic policies; articulation of economic development strategies and facilitating economic empowerment programmes. The strategic focus of the department is based on key policy principles including:

- ***Economic transformation***
- ***Advancement of Rural and Township economies***
- ***Spatial Economic Transformation, Modernization and renewal***
- ***Localisation of economic value chains, Beneficiation and value addition***
- ***Research and Development***
- ***Building Robust Public Private Partnerships and Entrepreneurship development.***

2.3 By aligning with policies like National Industrial Policy Framework and Industrial Policy Action Plan (IPAP); Commercial Forestry Sector Masterplan; Furniture Industry Masterplan; KwaZulu-Natal's Economic Reconstruction and Resuscitation Plan as well as KZN Wood Processing Sector Strategy; EDTEA supports the impactful forestry sector contribution made to the country and provincial GDP due to forestry products contributing at least 4.5% to total Manufacturing – making it among the top sectors within manufacturing.

2.4 EDTEA is acutely aware of prevalent challenges faced by KZN Small, Micro, Medium Enterprises operating in the forestry, wood and wood products industries as

they range from; lack of infrastructure for commercial forestry, limited skills development and training (business management/governance and mentorship), social conflicts - for CPAs and trusts, including conflict within communities/amongst beneficiaries, amongst beneficiaries and Inkosi, timber theft as well limited market access and grant funding for processing of by products (charcoal saw milling, pole treating, eucalyptus oil, renewable energy etc.).

2.5 This is the reason the department undertakes to spearhead strategic initiatives that will seek to resolve/reduce some of these challenges by conducting current sector situational assessments – feasibilities, identifying business opportunities and develop strategies plans to fight this scourge by starting off with a goal to resuscitate entrepreneurial enterprising in rural and township areas within these prioritized economic sectors such as in King Cetshwayo District's Nkandla Municipality.

2.6 The fact that KwaZulu-Natal is the second most afforested province in the country with added opportunities for expansion of the plantation areas through the New Afforestation programme driven by the Forestry Sector Masterplan 2020; EDTEA is sharpening facilitation of economic diversification, value addition and competitiveness in priority sectors such as Agro-processing/agri-business, Forestry and Wood products; especially since much of forestry operations are rurally based, making it a significant contributor to rural economies and social well-being.

2.7 Moreover, EDTEA is motivated by the fact that Forestry development offers real opportunities for poverty alleviation, employment creation and enterprise development in many rural areas of KwaZulu-Natal, it is anticipated that championing the much-needed investment drawcard project namely; resuscitation of a wood processing facility at Qhudeni area of Nkandla Local Municipality - direct job creation opportunities can be multiplied and thus serve as a catalyst for rural development.

2.8 This project necessitates in-depth feasibility studies to determine whether the resuscitation of a wood processing facility in Nkandla area under King Cetshwayo District is possible and makes commercial sense. The feasibility studies will investigate crucial project elements/resources including raw materials, skilled labour, funding, location and environmental considerations, present wood and wood products and

market considerations, costing, return on investments, etc. required for the resuscitation of a wood processing facility.

2.9 It is against this background that EDTEA seeks to create a conducive environment for direct investment, job creation and enhancing the province's global competitiveness development especially in the forestry sector seeing as it is the biggest employer offering direct employment opportunities, formal contracting and involvement in small grower schemes hence it is aptly referred to as the second largest contributor to wood and wood products GDP.

2.10 Through resuscitation of the wood processing facility at Nkandla, well located within King Cetshwayo District; EDTEA intends to explore value adding opportunities such as tourism adventures like camping/hiking trails in the famous Qhudeneni Forest. It will further enhance economic business opportunities that are within the Forestry Sector such as by-products related opportunities like Poor grade logs and Biomass by taking advantage of being positioned close to the biggest South African ports of Richards Bay and Durban.

By making this declaration, I understand that I am not allowed to present myself as a candidate to any other tenderer submitting a tender to this tender procedure. I am fully aware that if I do so, I will be excluded from this tender procedure, the tenders may be rejected, and I may also be subject to exclusion from other tender procedures and contracts funded by the KZN Department of Economic Development Tourism and Environmental Affairs.

Furthermore, should this tender be successful, I am fully aware that if I am not available at the expected start date of my services for reasons other than ill-health or *force majeure*, I may be subject to exclusion from other tender procedures and contracts funded by the KZN Department of Economic Development Tourism and Environmental Affairs and that the notification of award of contract to the tenderer may be rendered null and void.
