2. DEPARTMENTAL AND PROGRAMME OVERVIEW

2.1. The Department of Economic Development, Tourism, and Environmental Affairs (EDTEA) is tasked with driving sustainable economic growth in KwaZulu-Natal (KZN). This mandate is executed through the implementation of policies aimed at economic empowerment and development strategies that align with South Africa's Medium-Term Development Plan (MTDP) for 2025-2030. The four outcomes are as follows:

- Increased employment and work opportunities;
- Accelerated growth of strategic industrial and labor-intensive sectors;
- Increased infrastructure investment, access and efficiency; and
- Increased trade and investment.

2.2 The above-mentioned outcomes are implemented as EDTEA's contribution to its apex Strategic Priority (as per the 7th administration resolve) which is "inclusive economic growth and job creation".

2.3 Key objectives of these strategies include fostering inclusive growth, generating employment opportunities, and promoting economic transformation to address historical inequalities.

2.4 The cosmetics and essential oils sector is a vital part of agro-processing, recognized for its potential to empower agribusinesses, particularly in rural areas. This sector contributes significantly to local economic development through value addition, job creation, and providing access to both domestic and international markets. It also aligns with sustainable development objectives, as many products in this category rely on renewable natural resources.

2.5 The Cosmetics and Essential Oils Industry Support Program is designed to assist small agribusinesses operating in rural communities, with a focus on enhancing their product development, market access, and regulatory compliance. The programme aims to support existing agribusinesses that are already engaged in the production of cosmetics and essential oils products, helping them improve the quality, safety, and competitiveness of their offerings.

2.6 A selection process was undertaken to identify suitable agribusinesses that demonstrate potential for growth but face challenges such as limited access to markets, inadequate compliance with industry standards, and technical constraints in product development.

3. PROJECT RATIONALE AND MOTIVATION

3.1 Emerging agribusinesses in the cosmetics and essential oils sector face several challenges that hinder their growth, sustainability, and ability to compete effectively in both local and international markets. These challenges limit their potential to scale up, meet industry standards, and access profitable value chains. Key barriers include:

3.2 *Limited Market Access:* Many small and emerging businesses struggle to penetrate competitive local and international markets due to a lack of networking opportunities, weak marketing strategies, and limited distribution channels. Without adequate exposure to buyers, retailers, and potential investors, these enterprises find it difficult to position their products in mainstream retail and export markets.

3.3 *Knowledge Gaps:* The lack of awareness and understanding of industry standards, quality requirements, and regulatory compliance frameworks, such as International Organization for Standardization (ISO), Good Manufacturing Practices (GMP), and South African Bureau of Standards (SABS) certifications, prevents many businesses from producing market-ready products. Without these certifications, products cannot be legally sold in formal retail markets, limiting business growth.

3.4 *Product Development Constraints:* Agribusinesses often face significant barriers in the testing, formulation, and refinement of cosmetic and essential oil products. Many emerging enterprises lack access to advanced laboratories,

research institutions, and technical expertise required to develop high-quality, safe, and effective products. The absence of these resources makes it difficult for businesses to innovate and tailor products to changing consumer demands, thereby reducing their competitiveness in the market.

- 3.5 *Compliance Challenges:* Many agribusinesses struggle to meet the stringent regulatory requirements that govern the cosmetics and essential oils industry. Compliance with health, safety, and environmental regulations is essential for market entry, particularly in large-scale retail, export, and e-commerce sectors. However, due to limited financial resources and technical guidance, many emerging agribusinesses fail to comply, leading to missed opportunities in formal markets. In addition, the lack of proper packaging, labelling, and certification creates further obstacles in meeting both national and international trade standards.
- 3.6 This project is motivated by the urgent need to systematically address these challenges and equip agribusinesses with the necessary skills, resources, and tools to succeed in the cosmetics and essential oils industry.
- 3.7 Strengthening this sector will promote local production, reduce reliance on imported cosmetics and essential oils, and encourage the commercialization of indigenous plant-based ingredients, which hold significant potential for the province's biodiversity economy.
- 3.8 By addressing these fundamental barriers, the project aims to position KZN as a leading hub for natural cosmetics and essential oil production, fostering sustainable economic development and enhancing global competitiveness.

4. PURPOSE OF TOR

- 4.1 The purpose of the Terms of Reference is to request proposals from suitably-qualified service providers in the agro-processing, business management, beauty and body/skin-care/cosmetics product development and business management training space to provide the services (Product development/formulation and Testing, Regulatory Support, Manufacturing Support) for six (06 months) selected agribusinesses based in the following districts; King Cetshwayo (Empangeni and Richards Bay), uMgungundlovu (Pietermaritzburg) eThekweni (uMlazi), AmaJuba (Newcastle), uThukela (Geluksburg), iLembe (Ndwendwe), Harry Gwala (Ixopo) within the province of KwaZulu Natal.
- 4.2 The program will further encompass regular check-ins, progress evaluations, and feedback sessions that will enable mentors and support organizations to track the development of the participating SMMEs, identify areas of improvement, and provide timely interventions. Ongoing support and monitoring will help entrepreneurs stay motivated, overcome obstacles, and adapt to changing market conditions, ultimately enhancing their chances of success.
