2. Departmental and Programme Overview

Within the EPWP framework, the KwaZulu-Natal Department of Economic Development, Tourism and Environmental Affairs (EDTEA) implements the Invasive Alien Species Programme (IASP), which combines environmental management objectives with socio-economic development interventions. The programme is responsible for the control, management, and eradication of invasive alien plant species across prioritised areas of KwaZulu-Natal, thereby contributing to biodiversity conservation, ecological restoration, protection of water resources, and the reduction of wildfire risks. The programme also supports the Department's environmental mandate in terms of the National Environmental Management: Biodiversity Act, 2004 (Act No. 10 of 2004), and related legislation governing the management of invasive alien species.

For the 2026/27 financial year, the Department will implement forty-five (45) IASP EPWP projects across the province. These projects are expected to create employment opportunities for local communities while contributing towards the Department's Annual Performance Plan (APP) targets relating to environmental restoration, job creation, and skills development. The programme is expected to provide accredited training to 1,000 EPWP participants and non-accredited training to all project participants as part of its capacity-building initiatives.

3. Purpose of the TOR

The purpose of the Terms of Reference is to solicit a training service provider with an accreditation with Quality Council for Trade and Occupations (QTCO) or any relevant Sector Education and Training Authority (SETA), including but not limited TETA (Transport Education Training Authority) or MerSETA (Manufacturing, Engineering & Related Services Sector Education & Training Authority) or MQA (Mining Qualifications Authority) or Services SETA (Services Sector Education & Training Authority) or HWSETA (Health & Welfare Sector Education & Training Authority) or FP&MSETA (Fibre Processing & Manufacturing Sector Education & Training Authority) or any relevant SETA to assist the Department with training of IASP project participants on Occupational Skills Programme: Basic Emergency First Aid Responder or Basic First Aid Level 1. The training is to be provided to 435 project participants.

In alignment with the National Skills Accord, training is recognised as a fundamental pillar of EPWP aimed at enhancing the skills base and employability of participants. Furthermore, in accordance with the Code of Good Practice for Special Public Works Programmes and Ministerial Determination, workers employed under EPWP must be provided with relevant training.

Training is critical for the following reasons:

a) Firstly, the majority of EPWP participants are recruited from rural communities with varying educational backgrounds; therefore, training equips them with necessary skills.

b) Secondly, project activities often involve handling chemicals and working in hazardous environments, requiring compliance with the Occupational Health and Safety Act (Act No. 85 of 1993).

c) Thirdly, projects operate in remote and high-risk environments, requiring trained First Aiders on-site.

d) Lastly, training enhances employability by equipping participants with both technical and transferable skills.
